

9.0 IMPLEMENTATION

9.1 CHAPTER SUMMARY

The purpose of this chapter is to explain how the Comprehensive Plan will be utilized to guide future growth and development in the Village of Rewey and is intended to serve as the blueprint for the future. As change is inevitable, the Plan will need to be amended to reflect major changes. Section 9.5 will review how each chapter of the Comprehensive Plan elements interrelate and how the Plan will be monitored and evaluated. Section 9.9 discusses how the Plan must be updated at a minimum of once every ten years.

Wisconsin State Statute 66.1001(2)(i)

(i) Implementation.

A compilation of programs and specific actions to be completed in a stated sequence, including proposed changes to any applicable zoning ordinances, official maps, sign regulations, erosion and storm water control ordinances, historic preservation ordinances, site plan regulations, design review ordinances, building codes, mechanical codes, housing codes, sanitary codes or subdivision ordinances, to implement the objectives, policies, plans and programs contained in [pars. \(a\) to \(h\)](#). The element shall describe how each of the elements of the comprehensive plan will be integrated and made consistent with the other elements of the comprehensive plan, and shall include a mechanism to measure the local governmental unit's progress toward achieving all aspects of the comprehensive plan. The element shall include a process for updating the comprehensive plan. A comprehensive plan under this subsection shall be updated no less than once every 10 years.

9.2 VISION STATEMENT

The following is a review of the vision statement found in Chapter 1, Issues and Opportunities, section 1.3. The vision statement serves as the overall guide for land use decision making in the Village of Rewey.

To protect and improve the health, safety, and welfare of residents, preserve and enhance the quality of life for Rewey's residents. Most of all, protect and preserve the rural character and small town atmosphere of the Village of Rewey.

9.3 GOALS, OBJECTIVES AND POLICY RECOMMENDATIONS

The following are Implementation goals, objectives and policy recommendations. They support the goals, objectives, policies and programs specified in the previous eight chapters and will guide the implementation of this Comprehensive Plan in the Village of Rewey over the next 20 years.

1. **Comply with and enforce the 14 Planning Goals and the Policies and Programs outlined in this Comprehensive Plan.**
2. **Enforce local ordinances to support the vision noted in Section 9.2.**
3. **Comply with applicable County, State, and Federal regulations.**
4. **Amend the local comprehensive plan and local ordinances only after careful evaluation of existing conditions and potential impacts.**
5. **Update the Village of Rewey Comprehensive Plan at a minimum of every ten years as required by Wisconsin State Statute 66.1001.**

9.4 LOCAL ORDINANCE AND REGULATIONS

The intent of local ordinances and regulations is to guide land development within the Village. By carefully applying local ordinances and regulations, Rewey will be accomplishing the goals and policies of this Comprehensive Plan. The Village of Rewey will use their Plan to guide their decisions and their local ordinances as their enforcement tools.

9.5 CONSISTENCY AMONG PLAN ELEMENTS

As required by Wisconsin State Statute 66.1001, all elements included in this plan are consistent with one another and no known conflicts exist. If there is a question regarding a decision that is not clearly conveyed in the details of this Plan, then the decision should be based on the intent of the vision statement. All nine elements included in this Plan work to achieve the desired future for the Village of Rewey.

9.6 SEVERABILITY

If any provision of this Plan shall be found to be invalid or unconstitutional, or if the application of this Plan to any person or circumstances is found to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the other provisions or applications of this Plan, which can be given effect without the invalid or unconstitutional provision or application.

9.7 PLAN ADOPTION

The first official action required to implement the Village of Rewey Comprehensive Plan is official recommendation of the plan by the Village Plan Commission. Once the Village Planning Commission recommends the Plan by resolution, the Village Board then formally adopts the Comprehensive Plan by ordinance as required by State Statute 66.1001. The Rewey Comprehensive Plan will take effect when the Village Board passes it. After the Plan is adopted by ordinance, it then becomes the official tool for future development in the next 20 years. The Plan is designed to guide development in a consistent manner.

9.8 PLAN AMENDMENTS

Amendments may be necessary due to changes in Village policies, programs, or services, as well as changes in state or federal laws. An amendment may also be needed due to unique proposals presented to the Village. Amendments are any changes to Plan text or maps. The Village Board can amend the Rewey Comprehensive Plan at any time through the process used to adopt the Plan initially. Proposed amendments should be reviewed by the Village Planning Commission, with final action occurring at the Village Board, including proper public notices and hearings. Amendments should be done with extreme caution: they should not be made simply to avoid local planning pressure.

9.9 PLAN UPDATES

As required by Wisconsin State Statute, this comprehensive Plan needs to be updated at least once every ten years. An update is different from an amendment, as an update is a major revision of multiple plan sections including maps. The Plan was originally written based on variables that are ever changing and future direction might be inaccurately predicted. A Plan update should include public involvement, as well as an official public hearing.

9.10 MEASURING PROGRESS

The success of this comprehensive Plan will be measured by the extent to which the Village of Rewey achieves its vision of the future by following the goals, objectives, policies, and programs outlined in the Plan. In order to do so, the Planning Commission will review this Comprehensive Plan every two (2) years.

9.11 GOAL AND POLICY SUMMARY

Comprehensive Plans are comprised of nine elements (Issues and Opportunities, Utilities and Community Facilities, Agricultural, Natural, and Cultural Resources, Housing, Transportation, Economic Development, Intergovernmental Cooperation, Land Use, and Implementation). Each element has policy statements, which contribute to the overall Plan, supporting a jurisdiction's vision and goals. Policy statements give the jurisdiction general guidelines to help in making land use decisions.

Chapter goals are summarized in Table 9.1. Plan policies are summarized in Tables 9.2 through 9.10, with policies listed by element and showing implementation actions and the party responsible for such actions in separate columns. The key below describes Table notation.

IMPLEMENTATION ACTION

- **No specific action** – This policy is a general statement of direction that does not need a specific ordinance or program to be enforced. It is enforced through conscious decision making and by following the local comprehensive Plan, which is passed by ordinance.

- **Ordinance** - The policy is enforced by an existing ordinance or an ordinance currently in development.
- **Specific Action** – responsibility inherent in Planning Commission duties. Specific actions may be self-explanatory.
- **Ongoing** – The policy is currently part of the jurisdiction’s actions.

RESPONSIBILITY

Village of Rewey

- **Village Planning Commission** – The Planning Commission receives proposals/applications, reviews the proposal against the Plan and any local ordinances, then makes a recommendation to the Village Board.
- **Village Board** – As the elected body of the community, the Village Board acts as the decision-making authority and has the responsibility to make sure that the specific policy is enforced. The Board reviews the Planning Commission’s recommendation and makes a final decision.

IMPLEMENTATION TIMELINE

- If action is not required or is ongoing, no timeline is necessary. If action is required, a timeline is indicated, depending on the recommended action. For instance, if an ordinance needs to be created or amended, a timeline of one year is recommended.

IMPLEMENTATION TOOLS

- Implementation tools can include model ordinances, maps, or other planning documentation, depending on the need.
