

# IMPLEMENTATION ELEMENT

**EXECUTIVE SUMMARY**

The purpose of this section is to explain how the comprehensive plan will be utilized to guide future growth and development in Ridgeway and is intended to serve as the blueprint for the future. As change is inevitable, the plan may need to be amended to appropriately reflect major changes. Section I will review how each section of the comprehensive plan elements interrelate and how the plan will be monitored and evaluated. The final part of this Section is a discussion on how the plan will be updated at a minimum of once every ten years.

**Wisconsin State Statute 66.1001(2)(i)*****(i) Implementation.***

A compilation of programs and specific actions to be completed in a stated sequence, including proposed changes to any applicable zoning ordinances, official maps, sign regulations, erosion and storm water control ordinances, historic preservation ordinances, site plan regulations, design review ordinances, building codes, mechanical codes, housing codes, sanitary codes or subdivision ordinances, to implement the objectives, policies, plans and programs contained in pars. (a) to (h). The element shall describe how each of the elements of the comprehensive plan will be integrated and made consistent with the other elements of the comprehensive plan, and shall include a mechanism to measure the local governmental unit's progress toward achieving all aspects of the comprehensive plan. The element shall include a process for updating the comprehensive plan. A comprehensive plan under this subsection shall be updated no less than once every 10 years.

## **IMPLEMENTATION POLICIES**

- **Enforce local ordinances to maintain the character of existing and future land uses within the Town of Ridgeway.**

Local ordinances must be enforced consistently to maintain the character of the town. Again the keyword is enforcement.

- **Update the Town of Ridgeway comprehensive plan at a minimum of every ten years as required by Wisconsin State Statute 66.1001.**

This plan needs to be updated at least once every ten years. Depending on development or other changes, the plan may need to be updated on a more frequent basis.

- **Amend the local comprehensive plan and ordinances only after careful evaluation of existing conditions and potential impacts.**

Depending on what takes place in Ridgeway in the next twenty years, this comprehensive plan and enforcement ordinance may need to be amended. This should be done with extreme caution. Amendments should not be made to simply avoid local planning pressure.

## **CONSISTENCY AMONG PLAN ELEMENTS**

As required by Wisconsin State Statute 66.1001 all elements included in this plan are consistent with one another and no known conflicts exist. All nine elements included in this plan work to achieve the desired future for the Town of Ridgeway.

## **PLAN ADOPTION**

The first official action required to implement the Town of Ridgeway comprehensive plan is official adoption of the plan by the local Plan Commission. Once the local Plan Commission adopts the plan by resolution, the Town Board then needs to adopt the comprehensive plan by ordinance as required by State Statute 66.1001. After the plan is adopted by ordinance, it then becomes the official tool for future development in the next 20 years. The plan will guide development in a consistent manner.

## **LOCAL ORDINANCES AND REGULATIONS**

The intent of the local ordinances and regulations is to control development of land within the town. By carefully applying these local ordinances and regulations the Town of Ridgeway will be accomplishing policies of the comprehensive plan. Enforcement of such ordinances and regulations serve an important function by ensuring orderly growth and development. The Town of Ridgeway will continue to use the Iowa County Zoning Ordinance as a primary tool of enforcement.

## **PLAN AMENDMENTS**

The Town Board can amend the Town of Ridgeway Comprehensive Plan at any time. Amendments would be any changes to plan maps or text. Amendments may be necessary due to changes in town policies, programs, or services, as well as changes in state or federal laws. An amendment may also be needed due to unique proposals presented to the town. Proposed amendments should be channeled through the local planning commission and then final action should occur at the Town Board.

## **PLAN UPDATES**

As required by Wisconsin State Statute the comprehensive plan needs to be updated at least once every ten years. An update is different than an amendment, as an update is a major revision of multiple plan sections including maps. The plan was originally written based on variables that are ever changing and future direction might be inaccurately predicted. A plan update should include public involvement, as well as an official public hearing.

**RURAL RESIDENTIAL SITING CRITERIA**

The criteria in Table I.1 must be met in order to comply with the Town of Ridgeway and Iowa County’s comprehensive plans. Items listed in Column A are standard across the county. Items in Column B are specific to the Town of Ridgeway.

**Table I.1: Rural Residential Siting Criteria**

**COMMERCIAL SITING CRITERIA**

Because commercial development can vary significantly from retail sales to heavy industrial, the criteria below are more general in nature. Individual towns may want to consider having more specific requirements for particular types of business. The concept here is similar to the process for rural residential siting criteria. Items listed in Column A are standard across Iowa County; items in Column B are specific to the Town of Ridgeway.
