Schaalma reported that
there were replaced culverts due to the high water issues. Wolter asked if defective rails are due to use or if some are defective from the manufacturer. Schaalma stated that approximately 95% of defective rails are due to the age and use of the rail.

Schaalma presented the tie replacement history and future plan.

Sweeney asked if there are plans to apply for future TIGER grants. Lucht stated that it depends on the notice of financial opportunity, he stated that there have been dramatic changes in applying. Lucht stated that there is the TIGER and the INFRA program, both are discretionary programs that could be cut at the Federal level. Lucht stated that it requires a lot of political weight from WisDOT, the RTC, and local representatives to have a successful application. Ladewig thanked WSOR for the presentation and asked if the information presented by WSOR will be available on the GIS rail mapping application. Tollers stated that something to that effect is being planned, she is mapping all of the FRPP programs and all of the tracks rail weights. She stated that if there is something the RTC wants to see it can be worked towards. Ladewig thinks that if there is the ability to map the improvements, it is a process worth undertaking to help the commission track and plan future improvements.

Lucht stated that the total estimated grant funds on the reports are the yearly goals needed to keep improvements moving forward. Lucht stated that the grant funding is required to replace 100 year old rail to continue to provide great and competitive customer service. Lucht stated that WSOR will be working with the current administrations to tell the story and need to continue to invest in rail. Wolfe asked if the numbers take into account future projects for rail traffic. Ladewig asked if WSOR has a PR office that exists to tell the story of WSOR, WisDOT, and RTC’s successes. Lucht said WSOR is interested and is working on PR on as-needed basis. Lucht stated that previous efforts to spread good PR did not receive large pick-ups from media. Lucht stated they do invite legislatures to go on rail tours to show the importance of rail service.
